9 1/4"	1	Cross piece – brushes

All strips 1/4" (6 mm) thick × 2 1/2" (65 mm) high · total ≈ 19 ft running length

NOTES FOR CARPENTER

- MEASURE FIRST: confirm the drawer's clear inside size is 51" × 20". If it differs, keep every cell size above and absorb the difference in the Hair tools column (width) and the Perfume / cotton row (depth) — those are the only two flexible compartments.
- Dividers: 6 mm plywood / MDF with white laminate or edge-banding to match the drawer (or 4–5 mm acrylic). Height 65 mm — keep ≥ 25 mm clear under the drawer above.
- Joints: where two dividers cross, cut half-depth slots (egg-crate / halving joint) so the grid drops in as one removable unit. Cut each piece ~1 mm short for easy fit.
- Lining: glue 2–3 mm velvet / suede sheet on the drawer base (like the sample photo) so nothing scratches or slides.
- Hair tools bay: put a heat-proof silicone mat on the base; let the dryer / straightener cool before storing. Coil cords, don't wrap them tight.
- Tall items (hair spray, toner, perfume) stand upright only if the drawer's inside height allows — otherwise lay them in the same cell.
